OBJECTIVE

Software developer with proficiency in React and .Net core seeking to leverage coding skills to contribute to innovative projects in a collaborative team environment. Experienced in full-stack development, with a focus on creating efficient, scalable and user-friendly applications. Seeking an opportunity to contribute my technical expertise and passion for problem-solving to a dynamic software development team, where I can continue to learn and grow while delivering high-quality software solutions.

EDUCATION

Secondary School Certificate, Maharashtra State Board 2013-14
Percentage: 64.40

Higher Secondary Certificate, Maharashtra State Board of secondary and higher secondary education. 2014-16
Percentage: 63.08

Diploma in Electronics and Telecommunication, Maharashtra State Board of Technical Education. 2016-19
Percentage: 67.12

Bachelor of Electronics and Telecommunication Engineering, Mumbai University 2019-22
CGPI: 8.67

SKILLS

Technical Skills ReactJs, C#, MySQL, PostgreSQL, Java, Python.
Soft Skills Communication, Team Management, Collaboration, Critical Thinking, Presentation

EXPERIENCE

Software Engineer June 2022 - Aug 2024
WonderBiz Technologies (2+ Years Of Experience) *Thane, India*

- Proficient in developing responsive web applications using React JavaScript, including state management with Redux and client-side routing with React Router.
- Experienced in building RESTful APIs and implementing authentication with JWT tokens using .NET Core.
- Skilled in integrating MySQL and PostgreSQL databases with .NET Core applications for efficient data storage and retrieval.
- Familiar with database design, normalization, and optimization techniques to ensure data integrity and performance.
- Knowledgeable in SQL querying and database management tasks, including CRUD operations and transaction handling.
- Experienced in Agile methodologies, including sprint planning and daily stand ups, for iterative software development.
- Familiar with unit testing and integration testing to ensure the reliability and stability of applications developed with React, .NET Core, and various database systems.

PROJECTS

1.SMART HOME AUTOMATION USING ARDUINO - Design and implement a smart home automation system using Arduino-UNO, enabling remote control of home appliances through a user-friendly interface. The project included integration of sensors, bluetooth, actuators, and relays for enhanced home security and energy efficiency.

SANITIZATION ROBOT - Sanitization of objects having height up to 6 ft for efficient removal of bacteria and viruses, using UV-Light and spray mechanism controlled by ARDUINO.
